

FIRM PROFILE

SINCE 1967, Wilson Engineering has provided civil engineering and surveying to both public and private clients throughout the Pacific Northwest.

Our core mission is to create and restore **vital public infrastructure** for drinking water treatment and delivery, sewage collection and treatment, stormwater treatment and drainage, site development and institutional facilities.

Satisfied clients account for over ninety percent of Wilson's new projects. We keep our clients -small and large, urban and rural- well served and moving forward by:

- Communicating the need
- Finding the funding
- Taming the process steps
- Designing quality, long-lasting and flexible projects, and
- Completing the project at an affordable cost to constituents

We urge you to contact Wilson Engineering, LLC with your area's infrastructure questions and challenges.

PROJECTS

ABOUT WILSON ENGINEERING

WILSON ENGINEERING, LLC has been a majority woman-owned business since 2000. We have an experienced team of engineers, surveyors, inspectors and GIS specialists ready to meet your needs.

OUR HIGHEST PRIORITIES are technical and professional excellence, proactive problem solving, personalized service, and integrity.

CLIENTS' TIGHTER BUDGETS and growing project lists inspire our staff to be the most efficient, innovative, and diligent team players in the region.

THOUSANDS OF PROJECTS have been completed for public and private clients.

OUR CONTINUUM OF SERVICE takes each project from concept through long-term operations.

WE ARE READY to assist with your civil engineering and survey needs, and pledge our commitment for the betterment of our shared community.
