

## FIRM PROFILE

SINCE 1967, Wilson Engineering has provided civil engineering and surveying to both public and private clients throughout the Pacific Northwest.

Our core mission is to create and restore **vital public infrastructure** for drinking water treatment and delivery, sewage collection and treatment, stormwater treatment and drainage, site development and institutional facilities.

Satisfied clients account for over ninety percent of Wilson's new projects. We keep our clients -small and large, urban and rural- well served and moving forward by:

- Communicating the need
- Finding the funding
- Taming the process steps
- Designing quality, long-lasting and flexible projects, and
- Completing the project at an affordable cost to constituents

We urge you to contact Wilson Engineering, LLC with your area's infrastructure questions and challenges.

## PROJECTS

## SITE DEVELOPMENT

### CIVIL
